

Eclipse Installation Steps

Step 1 - Download Eclipse (64-bit) from link given below -

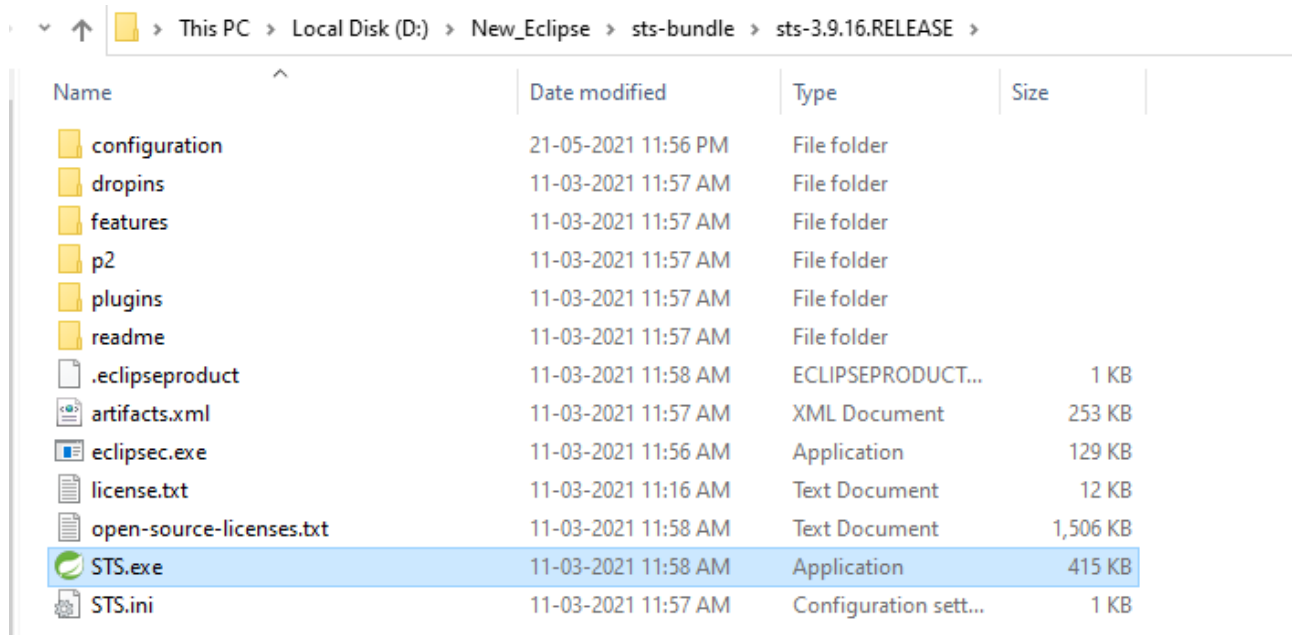

<https://github.com/spring-projects/toolsuite-distribution/wiki/Spring-Tool-Suite-3>

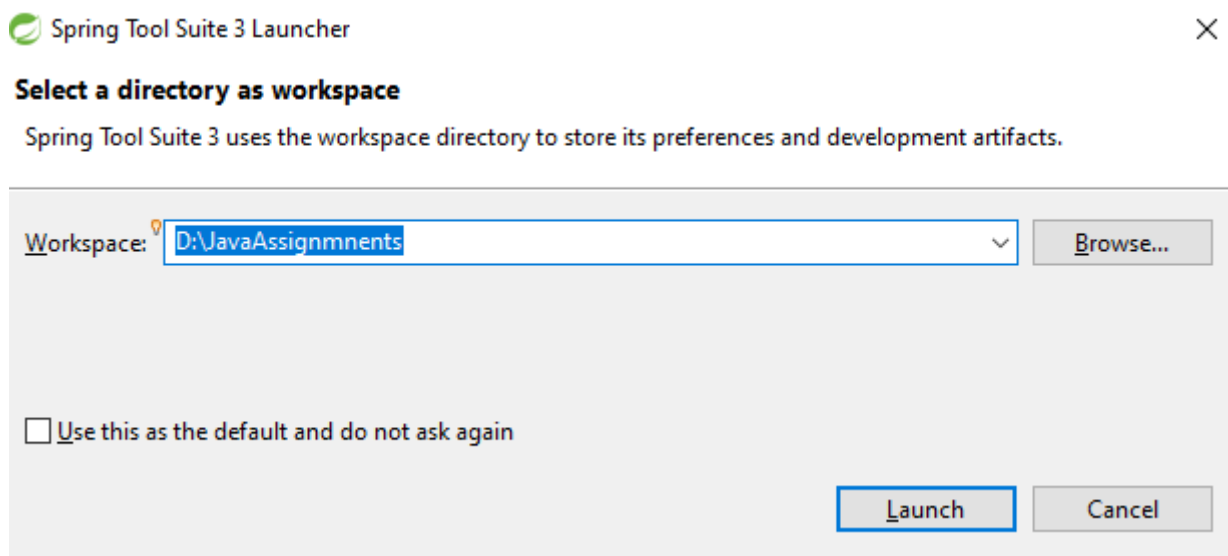

Step 2 - Extract downloaded zip file and start using it.

Eclipse Installation Steps

Step 3 –After successful extraction on zip file double click on sts-bundle folder -> sts-3.9.16.RELEASE and click STS.exe

Step 4 - Create folder with name “JavaAssignmnents” in D:\ and select as your workspace. Click on Launch to start Eclipse.

After launch, it will show you Dashboard. Close that Dashboard window

Eclipse Installation Steps

Step 5 - Your Eclipse is ready to use.
